Corrie joined DMARehability in 1999, as a Case Manager/Rehabilitation Consultant. Prior to joining DMARehability, Corrie's experience entailed working both front line as well in the clinical domain of a community based residential brain injury facility in London. Corrie attended the University of Windsor, obtaining a degree in Psychology. She also attained Certification in Canadian Life Care Planning, is a Registered Rehabilitation Professional (RRP) and a Certified Vocational Professional (CVRP).

Her experience includes managing catastrophic case management for individuals who have been diagnosed with mild to severe acquired brain injuries, spinal cord injuries, soft tissues injuries, amputations, and/or psychological issues.

Through her role as Case Manager and as Life Care Planner, she has gained extensive knowledge and experience in the assessment and development of the appropriate medical and rehabilitation required for individuals with a traumatic brain injury, spinal cord injury, and amputations, physical, cognitive and emotional disabilities.

Corrie has qualified as a Life Care Planner and provided testimony in the Superior Court of Ontario.
