In recent years, Frank has mainly used his expertise in Applied Behaviour Analysis to support clients with severe anxieties and phobias that resulted from their MVA's. His use of Exposure Therapy to treat these clients has regularly lead to the reduction of anxiety and the return of their pre-MVA functioning. Frank also has over 20 years experience in the field of Acquired Brain Injury. Frank has gained success with clients experiencing severe and multiple behavioural challenges by utilizing his clients' cognitive strengths and abilities to teach functional and academic skills.
